DJ / PRODUCER | DEEP HOUSE / SPIRITUAL HOUSE / LEFTFIELD

GARY ELLIS

SOUTH BEACH RECYCLING

London-born, Dorset-based record collector, DJ and producer Gary Ellis has spent decades behind the decks, building a sound rooted in deep house, jazz, disco and the tougher edges of underground club music. As South Beach Recycling, his productions balance warmth, groove and leftfield detail - music made for heads, but always for a dancefloor.

ABOUT THE SET

A South Beach Recycling set moves through deep house, spiritual and Afro-influenced grooves, jazz-flecked electronics, raw US house, dubbed-out rhythm and carefully chosen curveballs. Equally comfortable building a room early or pushing a late-night floor, Gary plays with the patience of a lifelong collector rather than a playlist DJ.

LABELS / CONNECTIONS
